École intuit.lab

06 / LANGUAGES

French — Native

English — Professional

07 / OFF SCREEN

Triathlon, sailing, cinema.

01 / PROFILE

Trained as a designer, now a Product Engineer. Six years of UI/UX, from agencies to the automotive industry at epicnpoc (CES, VivaTech), then co-founder of UserShaker, a B2B SaaS I design and build end to end. I'm open to freelance work, to keep discovering varied projects.

02 / EXPERIENCE

Product Engineer UX/UI
Nov 2025 — now

Freelance · Paris area, remote or on site

- Short fixed-price projects for small businesses and startups: landing pages, showcase websites, Figma mockups, prototypes.
- Full website audits: conversion, SEO, AI assistant visibility, compliance, prioritised action plan.

Co-founder & Product Engineer
Nov 2024 — now

UserShaker · Lille

B2B SaaS that structures usage data for phygital products in industry. Clients: Renault, Mercedes, Rubika · incubated at EuraTechnologies · Techinnov award winner.

- **UX/UI design and full-stack development** of the app, from the no-code V1 (Bubble.io) to the coded V2: Next.js 16, React 19, TypeScript, Prisma, Supabase, Vercel.
- **Migration without breaking production**: Bubble data moved to PostgreSQL, table by table in dependency order.
- **Shipped systems**: real-time collaborative journey editor, multi-plan subscriptions with quotas, roles and permissions.
- **Generative AI** for assisted creation, plus AI-free scripted import for clients with strict confidentiality requirements.
- **Quality & security**: Server Actions, schema migrations, unit tests, code review, security fixes.

UI Designer
Sep 2022 — Oct 2024

epicnpoc · Paris · work-study, then full-time

- **BOWL in-house software**: user flows, mockups and prototypes.
- **Client projects**: interfaces for several car makers and automotive suppliers; project management to coordinate a dozen tech startups and sync their technologies within a single concept car.
- **Trade shows**: driving simulator showcasing BOWL, from demo flow to interface design, for CES (Las Vegas). Phygital demos for VivaTech (Paris).

Web Designer · Paris Beauté · work-study — Nov 2021 — Aug 2022
moncommercantbienaime website (local shops); podcasts and videos for AG2R La Mondiale.

Assistant Web Designer · Cyra-Lydo · work-study — Aug 2019 — Sep 2021
E-commerce website management, print materials (catalogues, promotional posters).

Web Designer · Duc Oger · internship — Jan — May 2019
Two websites with online booking for watchmaking classes.

03 / PERSONAL PROJECTS

P-01 **Triathlon coaching app** — designed and built solo for my own training. 2026

P-02 **Bilingual FR/EN portfolio** — built with Next.js 16, TypeScript and Tailwind. 2026
